NEXT

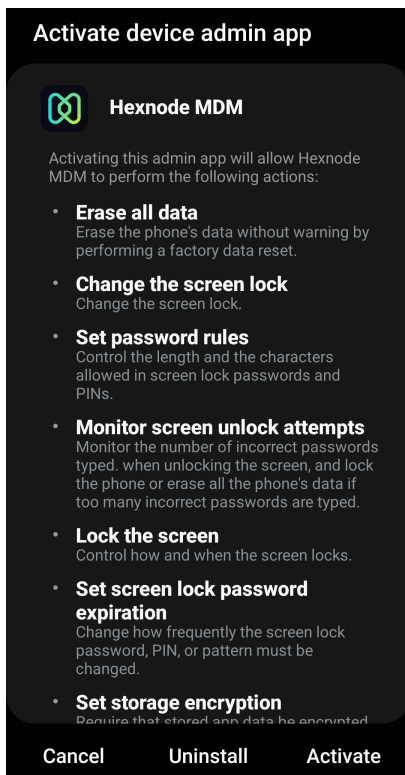

Choose whether this is a personal or corporate owned device.

Agree to the terms

You will now need to go through the next screen and accept whatever it's asking you to do.

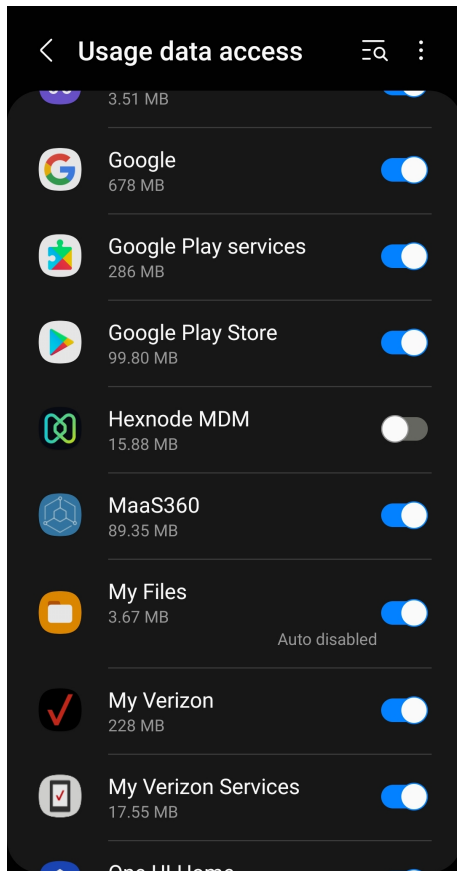

First you have to accept control, press activate.

The next ones as you click the switch will take you to a settings page, next to Hexnode MDM switch the switch from unswitched to switched on and then go back after.

There is one for battery usage that you may need to select all apps at the top before you

can unselect Hexnode MDM.

Allow access while using the app

hexnode

General permissions

Hexnode MDM needs your permission to access the following information on behalf of your Enterprise
