MaaS360 Removal

If you have had previous management on your phone you will need to remove it.

Open the Settings app -> General -> VPN & Device Management

Enter your passcode when prompted

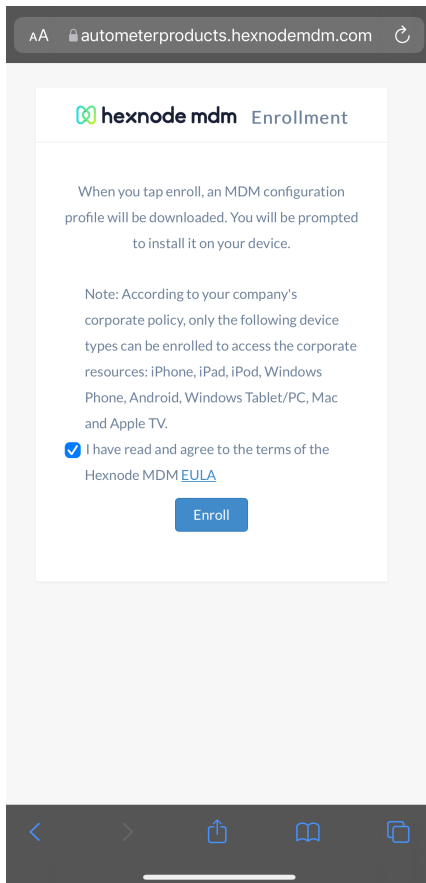

You've successfully removed the old profile off your device.

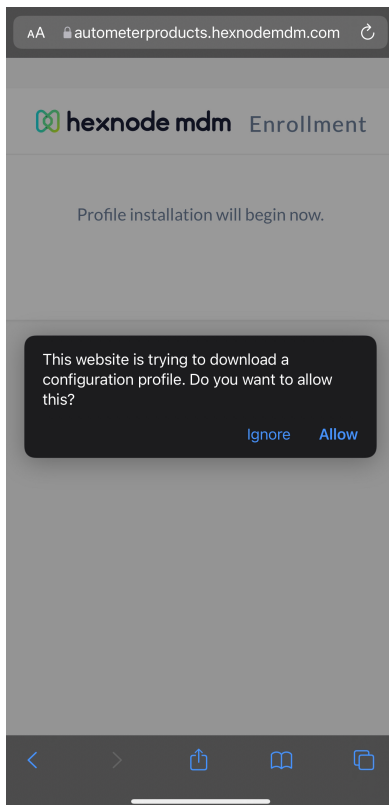

Hexnode Setup

Visit <https://autometerproducts.hexnodemdm.com/enroll> on your phone

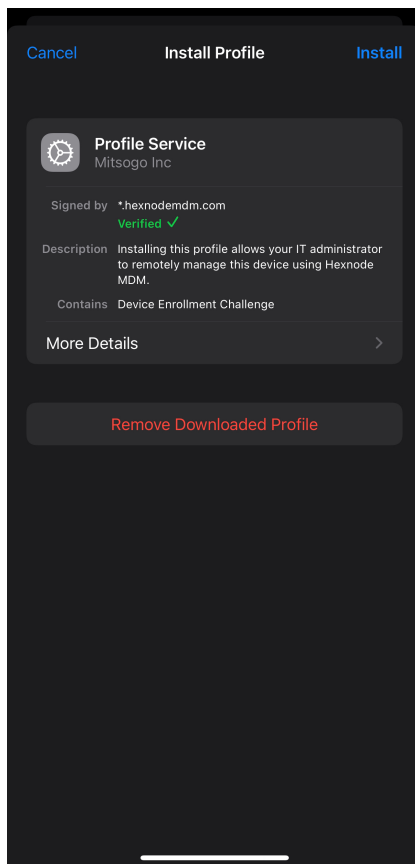

Check the agree to terms box and press enroll

Press Accept to installing a profile

Press install in the top right corner

Press Install when prompted

Installing Profile

Profile Service
Mitsogo Inc
